CEO MESSAGE

In a world where energy demands are rapidly accelerating, and technical and logistical challenges continue to grow day by day, we at Abraj Al-Taqa believe that excellence is never achieved by chance. It is the result of steadfast commitment, precision in execution, and an unwavering passion for every detail—no matter how small.

We began with a clear and ambitious vision: to become a trusted and essential partner in the oil industry by delivering integrated solutions that cover all phases of drilling operations and supporting services, in line with the highest international standards and in step with the continuous evolution of this vital sector.

At Abraj Al-Taqa, we do not view projects as short-term assignments; rather, we regard them as long-term strategic commitments that demand deep operational expertise, adaptability in complex environments, and the capability to deliver reliable, efficient,

and sustainable solutions that create lasting value for our clients.”

We firmly believe that the true capital of any company lies in its people. Therefore, we are committed to attracting top talent and continuously developing our teams to ensure performance that meets the aspirations of our partners and strengthens our position in the market.

Amid the rapid transformations in the energy sector, we continue to enhance our capabilities and expand our range of services—positioning ourselves at the forefront of progress, not waiting on the sidelines, and delivering real added value in every project we undertake.

We do not merely provide services... we build relationships founded on trust, and we make a tangible difference in every project we are part of—placing quality, safety, and professionalism at the core of everything we do.

**We Drill with Confidence... and Build
the Future of Energy**

WHO WE ARE?

Abraj Al-Taqa for Oil Services, Drilling, and Well Rehabilitation is a specialized company providing drilling and support services to the oil and gas sector. It was established in response to the growing demand for reliable and high-efficiency operational solutions in this vital industry.

Since our inception, we have set our sights on being more than just a service provider—we aim to be a strategic partner that contributes to enhancing operational efficiency and maximizing productivity for our clients. We achieve this by delivering integrated solutions that combine technical expertise, advanced equipment, and professional project management.

We are distinguished by our ability to offer a comprehensive system that includes modern equipment, qualified personnel, and

specialized operational services. This enables us to meet the requirements of projects of varying sizes and complexities, across diverse operating environments.

We are also committed to keeping pace with the latest technologies and global best practices in drilling and oilfield services, while consistently adhering to the highest standards of quality and safety to ensure efficient and sustainable execution.

What sets Abraj Al-Taqa apart is our approach—built on precision in execution, flexibility in operations, and full commitment to client expectations. This makes us a true pillar for project success and a dependable partner throughout all stages of work, from planning to completion.

From Drilling to Production... Delivering Real Impact

01

OUR VISION

To be among the leading regional companies in drilling and energy services, recognized for quality, reliability, and innovation.

02

OUR MISSION

To deliver integrated oilfield services with the highest levels of efficiency, while ensuring full commitment to safety and quality, and building long-term partnerships with our clients.

WHY US?

Operational Expertise
Specialized in the Drilling Sector

Rapid Response
and Flexible Execution

True Integration in Services
From Equipment to Workforce

Strict Commitment
to Safety and Quality Standards

Deep Understanding
of Oil Project Requirements

ABRAJ AL-TAQA

STRATEGIC PARTNERSHIP

We believe that success in the energy sector cannot be achieved in isolation. Therefore, we actively build strategic partnerships with local and international companies to enhance our technical and operational capabilities and deliver advanced solutions that meet the highest standards.

OUR TEAM

At Abraj Al-Taqa, our workforce represents an integrated operational strength and forms the true foundation of our project success and continued excellence in the drilling and oilfield services sector. We have highly qualified engineering and technical teams with advanced field experience and the ability to operate in complex working environments, in line with the highest professional and technical standards.

We rely on a professional system built on interdisciplinary integration, disciplined performance, and precision in execution, enabling us to deliver reliable services and high-quality results that meet—and exceed—our clients' expectations.

What distinguishes our team:

-  Strict Commitment to Safety
-  Professional Discipline
-  Flexibility and Responsiveness to Safety
-  Continuous Development
-  Operational Integration
-  High Field Efficiency
-  Advanced Specialized Expertise

“

The strength of our team lies not only in its expertise, but also in its collective commitment to excellence, making Abraj Al-Taqa a trusted partner in delivering projects with high efficiency and professionalism.

ORGANIZATIONAL STRUCTURE

A large industrial drilling rig, possibly for oil or gas, stands in a desert landscape. The rig is a complex structure of metal beams and platforms, with a tall derrick extending upwards. The background shows rolling sand dunes and mountains under a clear sky. The overall scene is industrial and rugged.

OUR SERVICES & EXPERTISE

1. DRILLING RIGS

Provision and operation of fully integrated drilling rigs equipped with the latest technologies, ensuring efficient and safe drilling operations.

2. RIG MOVE TEAM

Execution of drilling rig moves with high professionalism, ensuring speed, precision, and minimized operational downtime.

3. RENTAL DRILLING EQUIPMENT

We provide a wide range of high-quality drilling equipment, including:

- Drill Pipes
- Bottom Hole Assembly (BHA)
- Fishing Tools
- Drilling & Fishing Jars
- Subs in various sizes and connections
- Stabilizers
- Reamers
- Scrapers
- Handling Tools in all sizes
- Drilling Spools & DSA
- And other auxiliary equipment

4. FISHING TOOLS SERVICES

Providing advanced solutions for retrieving stuck equipment from wells, using specialized tools and technologies.

5. TRS - TUBULAR RUNNING SERVICES

Executing pipe running and installation operations with high precision, using trained crews and specialized equipment to ensure safety and efficiency.

6. DRILLING CREW SUPPLY

Providing drilling rig crews of highly experienced engineers and technicians, ready to operate in various working environments.

7. OIL WELL SERVICES (COMING SOON)

We are expanding our service scope to include:

- Wireline Services
- Coiled Tubing
- Slickline
- Cementing Services

in order to provide integrated solutions covering the full well lifecycle.

DRILLING RIGS & OPERATIONAL CAPABILITIES

Abraj Al-Taqa owns and operates two highly advanced NOV Ideal drilling rigs, Rig90- and Rig97-, each rated at 1,500 HP. These rigs are designed to perform safe, efficient, and high-performance drilling operations across demanding oilfield environments, while also supporting associated well services such as well completion support, workover and heavy intervention activities, casing and tubing operations support, well control operations, circulation, cleaning, and well conditioning. Supported by qualified operational teams, professional field supervision, and strict adherence to quality and HSE standards.

NOV

WIRELINER SERVICES & SPECIALIZED UNITS

Abraj Al-Taqa supports oilfield operations through specialized wireline units designed to perform reliable well intervention, data acquisition, and field support activities. Our wireline capabilities are backed by qualified personnel, well-maintained equipment, and strict adherence to safety and operational standards, enabling efficient execution across different wellsite conditions.

RECORD OF ACHIEVEMENTS

Established on a solid foundation of accumulated field expertise and operational excellence, Abraj Al-Taqa is built on the extensive experience of its founders and technical team, who have previously participated in the execution and management of numerous drilling and oilfield service projects across diverse operational environments.

These practical experiences have contributed to building a solid knowledge base and a deep understanding of the sector's requirements, enabling the company to efficiently handle various types of projects and deliver integrated operational solutions in line with the best international practices.

STRENGTHS

Full operational readiness

The ability to initiate and execute projects efficiently from the early stages through to full completion.

Mastery of Modern Technologies

Practical experience in the use and application of drilling and support service technologies in accordance with international standards.

Effective Project Management

Ability to adhere to project timelines and achieve optimal operational outcomes.

Strict Safety Standards

Implementation of best health and safety practices across all operations.

Building on this strong foundation, Abraj Al-Taqa is committed to achieving a distinguished track record, grounded in tangible performance and reliable results with every project executed.

TOTAL QUALITY MANAGEMENT

Abraj Al-Taqa adopts an integrated Total Quality Management (TQM) approach, focused on embedding a culture of quality across all levels of operations—from planning through execution to continuous evaluation—ensuring the highest standards of operational efficiency and performance reliability.

We are committed to implementing precise control systems and procedures aimed at enhancing service quality, reducing operational risks, and ensuring compliance with the best international standards and practices in the drilling and oilfield services sector. We also believe that quality is not a short-term objective, but a continuous process that requires ongoing review and development.

QUALITY SYSTEM PILLARS

Continuous Performance Monitoring

Implementing precise monitoring systems to measure Key Performance Indicators (KPIs) and analyze results, ensuring the required efficiency across all operations.

Operational Process Improvement

Periodic review and enhancement of processes in line with Continuous Improvement methodologies, aiming to increase productivity and reduce waste.

Compliance with international standards:

Adopting global best practices and ensuring compliance with internationally recognized quality standards in the oil and gas sector, in accordance with American Petroleum Institute (API) standards. In addition, maintenance operations are carried out in line with the recommendations of the Original Equipment Manufacturer (OEM).

Professional Competency Development

Conducting regular professional and specialized development programs for the entire technical and administrative structure, in line with job requirements and the recommendations of the International Association of Drilling Contractors (IADC).

HEALTH AND SAFETY POLICY

Abraj Al-Taqa places the safety of personnel and equipment, as well as environmental protection, at the forefront of its strategic priorities, firmly believing that a safe working environment is the true foundation for operational efficiency and sustainability in the drilling and oilfield services sector. Accordingly, we are committed to implementing a comprehensive Health, Safety & Environment (HSE) Management System covering all stages of work without exception.

We strive to embed a strong safety culture as an integral part of the daily behavior of all employees, while strictly adhering to applicable local and international standards in the oil and gas industry. We also implement preventive and proactive measures to minimize potential risks and enhance overall operational readiness.

KEY PILLARS OF OUR HEALTH AND SAFETY POLICY:

Continuous Training of Personnel:

Implementation of regular training and qualification programs in occupational safety, emergency response, and handling of high-risk equipment and operations, ensuring enhanced workforce competency and strengthened preventive awareness.

Adherence to Safety Procedures:

Strict enforcement of Safe Work Procedures and Permit to Work (PTW) systems across all field and operational activities.

Regular Risk Assessment:

Systematic risk assessments conducted before and during operations, with continuous updates to risk control and mitigation plans.

Adoption of Global Best Practices:

Compliance with internationally recognized health, safety, and environmental standards, and implementation of advanced HSE management systems to ensure the highest levels of protection.

Emergency Response:

Development of effective Emergency Response Plans to ensure rapid and organized handling of any potential incidents.

Environmental Protection:

Commitment to minimizing the environmental impact of operations through responsible practices and proper management of waste and emissions.

Individual and Collective Responsibility:

Promoting a safety culture that emphasizes safety as a shared responsibility among all team members—an ethical and professional commitment embedded in daily operations.

“

Through this integrated approach, Abraj Al-Taqa reaffirms its firm commitment to providing a safe and sustainable working environment that ensures the protection of human resources and operational assets, while achieving the highest levels of performance and quality across all its projects.
